

East Asia Phonographic Mornings #13/25
Each Morning of the World #08
Studio h ~ Beijing ~ China
« morning »
Yan Jun

~~~~~

studio h, where i built for my own daily work and occasionally concert since later 2017. a 24th floor flat in a complex in-between east 5th and 4th ring road, beijing. very ordinary environment.

i used to live here. some of the early recordings i found through key word searching were also recorded here. the others were recorded in olympic forest park and dashila, beijing.

recorded on february 18. at studio h, beijing.

a zoom h6 recorder on table recording while searching key word "morning" in my early field recording folder (2006-2007) and then check each file through speakers shortly. it's a continual field recording. i did a pre-mastering but no editing.
